PROFESSIONAL SUMMARY

Computer Science and Engineering graduate from the 2026 batch with hands-on experience developing full-stack applications, REST APIs, database-driven systems, and machine learning features. Proficient in Java, Python, JavaScript, SQL, React.js, Node.js, Express.js, PostgreSQL, and MongoDB. Strong foundation in data structures, algorithms, object-oriented programming, debugging, problem solving, Git, and collaborative software development.

EDUCATION

National Engineering College

Bachelor of Engineering

Computer Science and Engineering | CGPA: 7.83/10

Kovilpatti, India

Sep 2022 - April 2026

EXPERIENCE

Algo University

Technical Solutions Engineer Intern

Bengaluru, Karnataka

Jun 2026 – Jul 2026

- Collaborated with a development team to build Lumen, an internal platform for managing student doubts, mentor ownership, comments, and resolution workflows.
- Developed and integrated backend functionality using Node.js, Express.js, REST APIs and PostgreSQL.
- Implemented data-access-layer operations and supported the migration of application storage to PostgreSQL.
- Integrated backend responses with React.js interfaces and debugged frontend, API and database integration issues.

HIF Analytics LLC

Data Analytics Intern

Remote

Jul 2024 – Nov 2024

- Analyzed datasets using Python and created visualizations to identify patterns and communicate data-driven insights.
- Collaborated with team members, documented findings, and supported structured analysis and reporting activities.

Webstack Academy

MERN Stack Development Intern

Remote

Feb 2024 – Apr 2024

- Built full-stack web application features using MongoDB, Express.js, React.js, Node.js, JavaScript, and REST APIs.
- Worked on frontend components, backend routes, database integration, authentication workflows, and application debugging.

PROJECTS

Health Verse – Intelligent Healthcare Management System | React.js, Node.js, MongoDB, Python

- Developed a full-stack healthcare platform for pregnant mothers, children, elders and doctors using role-based access and secure authentication.
- Built REST API workflows for health records, vaccination tracking, appointments, reminders, diet recommendations and doctor approvals.
- Integrated Python-based machine learning modules for health-risk prediction, skin-rash classification, hospitalization-risk analysis and explainable predictions.
- Connected React.js interfaces with Node.js, Express.js, MongoDB and machine learning services to deliver end-to-end application features.

Skill Proctor – AI-Based Online Examination Platform | React.js, Node.js, Express.js, MongoDB

- Built an online examination platform with user authentication, exam management, REST APIs, database integration and automated monitoring features.
- Integrated facial recognition, multi-person detection, head-pose analysis, and plagiarism-related workflows for remote examination monitoring.

Gold Waste Optimizer | Python, Machine Learning, Computer Vision

- Developed a machine-learning solution for jewel manufacturing to analyze material loss, classify designs, predict scrap and detect production anomalies.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL, C

Frontend: React.js, HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Data & Analytics: PostgreSQL, MongoDB, MySQL

Developer Tools: Git, GitHub, Postman, Visual Studio Code, Firebase

Core Computer Science: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Power BI: Dashboards, Reports, Data Visualization, Power Query basics, Power Automate, Automated Workflows, Approvals, Notifications, Excel Integration

CERTIFICATIONS

AWS Cloud Technical Essentials – **Coursera** | AWS Solutions Architecture Job Simulation – **Forage** | Database Management Systems – **Scaler** | HTML and CSS – **Infosys Springboard**

LEADERSHIP AND ACHIEVEMENTS

- Joint Secretary of the Computer Society of India student chapter and coordinated technical activities and student events.
- Secured third prize in a technical paper presentation conducted at National Engineering College.
